

# UNIVERSITY OF TORONTO'S FORESTS AND TREES

## GULL LAKE SURVEY CAMP

Single tree canopy and woodlands (forest stands) were delineated and classified according to their vegetation persistence (deciduous, coniferous, mixed) and successional stage (early, mid, late, shrub succession, single tree canopy). Single tree and woodland stand mapping was accomplished using available orthophotography (MNRF 2013), with features validated using Google Earth Pro satellite imagery as a secondary reference.

### Single Tree Canopy

#### Vegetation Persistence

- CONIF
- DECIDU
- MIXED

Gull Lake Property

### Woodland Area

#### Vegetation Persistence

- |  |  |  |       |
|--|--|--|-------|
| CONIF  | DECIDU   | MIXED  |       |
