

*Bruce Peninsula  
Eco-district 6E14, Ontario*

## ***Predicted Total Forest Biomass***

biomass estimates based on  
Ter-Mikaelian &  
Korzukhin, 1997  
Allometric Formulas  
1:200,000

Total (above and below ground)  
biomass estimates for the Bruce  
Peninsula area created using the  
Ter-Mikaelian & Korzukhin, 1997  
allometric formulas. Estimates of  
biomass for this grid are presented  
in tonnes/hectare. This grid was  
created by adding the predicted  
above-ground and predicted root  
biomass together.
