

Urban Canopy Mapping for Population Centers in the Lake Simcoe Watershed

Tree canopy cover map in an urban context was produced in populations centers within the Lake Simcoe Watershed using RapidEye imagery and Random Forest (RF) classifier.

Urban land cover/land use classes

- Grassland/Herbaceous
- Agricultural land
- Tree Canopy Cover
- Urban land
- Water bodies
- Wetland areas

For more information about the procedures, please refer to a report on Mapping urban canopy using RapidEye imagery: comparing, Maximum Likelihood, Object-Oriented, and Random Forest Classifiers.
